

HEALTH SCIENCES – BROAD FIELD

Itasca Community College

Degree: Associate of Science

Length: 60 semester credits

This program provides students a broad base of general education coursework relevant to the field of health sciences, in preparation to transfer to a broad array of health sciences majors at a college or university. This degree program is designed to fulfill health science baccalaureate requirements at all MnSCU system universities offering related degrees.

This degree is designed to transfer to all system universities offering related baccalaureate programs through a statewide articulation agreement. The Health Sciences Broad Field Statewide articulation agreement has been approved by all system universities. Even with this agreement, students must consult with both Itasca Community College and transfer university counselors/advisors early and often, for guidance and planning regarding the requirements of the various health sciences baccalaureate programs. This will help to facilitate the most efficient transition and transfer.

The Associate of Science degree in Health Sciences-Broad Field will be awarded for successful completion of the courses listed below. The following minimum requirements must be completed:

1. Specific program requirements
2. Grade point average of 2.0
3. A minimum of 20 credits must be completed at Itasca Community College
