## **What is TRIO?**

Itasca Community College's Student Support Services Program is a federally funded program which provides students who are low income, first generation college students (neither parent obtained a four-year degree), or students with disabilities opportunities to achieve the same success in college as students who have more traditional support available to them. We make special attempts to assist adult returning students, individuals who have child dependents, minority students, and those who plan to transfer to a four-year college.

*“Students in the TRIO Student Support Services program are more than twice as likely to remain in college as those students from similar backgrounds who did not participate in the program.”* -Council for Opportunity in Education
